CONTENTS

No. 1, September 20, 1952

PAGE

Riggs, Austen F. Sulfhydryl groups and the interaction between the hemes in hemoglobin 1

Herriott, Roger M., and Barlow, James L. Preparation, purification, and properties of *E. coli* virus T_2. Plate 1 17

Matoltsy, A. Gedeon. A study on the structural protein of the vitreous body (vitrosin) 29

Hershey, A. D., and Chase, Martha. Independent functions of viral protein and nucleic acid in growth of bacteriophage 39

Solomon, A. K. The permeability of the human erythrocyte to sodium and potassium 57

Baer, B. S., and Krueger, A. P. The *B. mycoides* N host-virus system. II. Interrelation of phage growth, bacterial multiplication, and lysis in infections of the indicator strain of *B. mycoides* N with phage N in nutrient broth 111

Baer, B. S., and Krueger, A. P. The *B. mycoides* N host-virus system. III. Release of phage from the lysogenic strain 127

No. 2, November 20, 1952

Hayashi, Teru. Contractile properties of compressed monolayers of actomyosin. Plate 2 139

Gardner, Lytt I., MacLachlan, Elsie A., and Berman, Helen. Effect of potassium deficiency on carbon dioxide, cation, and phosphate content of muscle. With a note on the carbon dioxide content of human muscle 153

Larsen, Helge, Yocum, C. S., and van Niel, C. B. On the energetics of the photosyntheses in green sulfur bacteria 161

Daly, Marie M., Allfrey, V. G., and Mirsky, A. E. Uptake of glycine-N^{15} by components of cell nuclei 173

Stern, H., and Mirsky, A. E. The isolation of wheat germ nuclei and some aspects of their glycolytic metabolism 181

Wyatt, G. R. The nucleic acids of some insect viruses 201

Heinmets, F., Vinegar, R., and Taylor, W. W. Studies on the mechanism of the photosensitized inactivation of *E. coli* and reactivation phenomenon 207

Allfrey, V., and Mirsky, A. E. Some aspects of the desoxyribonuclease activities of animal tissues 227

Daly, Marie M., and Mirsky, A. E. Formation of protein in the pancreas 243

PAGE

MARKUS, GABOR, and BAUMBERGER, J. PERCY. Oxygen dissociation of whole blood studied polarographically..... 255

HUBBARD, RUTH, and WALD, GEORGE. Cis-trans isomers of vitamin A and retinene in the rhodopsin system..... 269

No. 3, JANUARY 20, 1953

BECK, STANLEY D. Nutrition of the European corn borer, *Pyrausta nubilalis* (HBN.). III. An unidentified dietary factor required for larval growth..... 317

BROWN, I. W., JR., and EADIE, G. S. An analytical study of *in vivo* survival of limited populations of animal red blood cells tagged with radioiron..... 327

BACHOFER, C. S., and POTTINGER, M. AELRED. Protection of bacteriophage against x-rays by high concentrations of a neutral salt..... 345

HADIDIAN, Z. The action of venom and proteolytic enzymes on the nonspecific inhibitor of hyaluronidase..... 361

SACKTOR, BERTRAM. Investigations on the mitochondria of the house fly, *Musca domestica* L. I. Adenosinetriphosphatases..... 371

TELFER, WILLIAM H., and WILLIAMS, CARROLL M. Immunological studies of insect metamorphosis. I. Qualitative and quantitative description of the blood antigens of the *Cecropia* silkworm..... 389

HUBBARD, RUTH, GREGERMAN, ROBERT I., and WALD, GEORGE. Geometrical isomers of retinene..... 415

BUGHER, JOHN C. Characteristics of collodion membranes for ultrafiltration..... 431

No. 4, MARCH 20, 1953

BLACKSHAW, A. W. The motility of ram and bull spermatozoa in dilute suspension..... 449

TURNER, R. S. Modification by temperature of conduction and ganglionic transmission in the gastropod nervous system..... 463

HUF, ERNST G., and WILLS, JOYCE. The relationship of sodium uptake, potassium rejection, and skin potential in isolated frog skin..... 473

SCHILLER, ALFRED A., SCHAYER, RICHARD W., and HESS, E. L. Fluorescein-conjugated bovine albumin. Physical and biological properties. Plates 3 to 5..... 489

PONDER, ERIC. The specific heat of red cells, with special reference to the paracrystalline rat red cell..... 507

SOUTH, FRANK, E., JR., and COOK, SHERBURNE F. Effect of helium on the respiration and glycolysis of mouse liver slices..... 513

BRACKETT, FREDERICK S., OLSON, RODNEY A., and CRICKARD, ROBERT G. Respiration and intensity dependence of photosynthesis in *Chlorella*. 529

PAGE

BRACKETT, FREDERICK S., OLSON, RODNEY A., and CRICKARD, ROBERT G. Time course and quantum efficiency of photosynthesis in *Chlorella* 563

NORTHROP, JOHN H. Growth and phage production of *B. megatherium*. I. Growth of cells after infection with C phage. II. Rate of growth, phage yield, and RNA content of cells. III. Effect of various substances on growth rate and phage production 581

No. 5, MAY 20, 1953

POWELL, JOAN F., and HUNTER, J. R. Sporulation in distilled water. Plates 6 and 7 601

LEVINSKY, NORMAN G., and SAWYER, WILBUR H. Relation of metabolism of frog skin to cellular integrity and electrolyte transfer 607

LEVINSON, H. S., and SEVAG, M. G. Stimulation of germination and respiration of the spores of *Bacillus megatherium* by manganese and monovalent anions 617

BARON, L. S., SPIEGELMAN, S., and QUASTLER, H. Enzyme formation in non-viable cells 631

RUDIN, DONALD O., and EISENMAN, GEORGE. After-potential of spinal axons *in vivo* 643

SCOTT, GEORGE T., and HAYWARD, HUGH R. Metabolic factors influencing the sodium and potassium distribution in *Ulva lactuca* 659

LLOYD, DAVID P. C. Influence of asphyxia upon the responses of spinal motoneurons 673

KOPPEL, J. L., PORTER, C. J., and CROCKER, BRUCE F. The mechanism of the synthesis of enzymes. I. Development of a system suitable for studying this phenomenon 703

PONDER, ERIC. The kinetics of progressive reactions in systems containing saponin, digitonin, and sodium taurocholate 723

No. 6, JULY 20, 1953

ANDERSON, PAUL A. Automatic recording of the growth rates of continuously cultured microorganisms 733

DEYRUP, INGRITH. A study of the fluid uptake of rat kidney slices *in vitro*. 739

LUDWIG, DANIEL. Cytochrome oxidase activity during diapause and metamorphosis of the Japanese beetle (*Popillia japonica* Newman) .. 751

SHULMAN, SIDNEY, KATZ, SIDNEY, and FERRY, JOHN D. The conversion of fibrinogen to fibrin. XIII. Dissolution of fibrin and inhibition of clotting by various neutral salts 759

PONDER, ERIC. Volume changes, ion exchanges, and fragilities of human red cells in solutions of the chlorides of the alkaline earths 767

HERSHEY, A. D., DIXON, JUNE, and CHASE, MARTHA. Nucleic acid

DOES NOT CIRCULATE

PAGE

economy in bacteria infected with bacteriophage T_2. I. Purine and pyrimidine composition 777

COMMONER, BARRY, and NEHARI, VARDA. The effects of tobacco mosaic virus synthesis on the free amino acid and amide composition of the host 791

COMMONER, BARRY, SCHIEBER, DOROTHY L., and DIETZ, PHYLLIS M. Relationships between tobacco mosaic virus biosynthesis and the nitrogen metabolism of the host 807

INDEX TO VOLUME 36 831
